

Overview

Supplying equipment & services to the Hydrocarbon Processing & Power Industries of Texas, Oklahoma, Arkansas & Louisiana

History and Experience

Beginnings:

James Industries, Inc (JII) was incorporated as a Manufacturer's Representative in 1982 by Joe Wolfskill to serve Customers in the Electric Power Industry in Texas and Oklahoma and the Engineering and Construction Firms serving them.

Growth:

Over the past 33 years, JII has expanded into Louisiana and Arkansas and broaden our footprint into Industrial markets such as Refineries, PetroChemical, Chemical, Pulp & Paper Industries.

JII now represents 20 elite Suppliers of Equipment and Services to our Customers.

Values

TRUST

- We commit to earning trust by delivering proven solutions and performance to our customers.

EXCELLENCE

- We continually strive for excellence in everything we do through discipline, drive and taking responsibility.

ACCOUNTABILITY

- We embrace ownership of the results of our work with an own it / fix it approach.

MEANING

- We believe and take seriously the critical energy infrastructures we serve in the greatest country on the planet.

Approach

Customers:

JII visits the Customer site and becomes familiar with the needs of the business.

Principals:

JII then matches the right Supplier for each specific need.

Opportunities:

JII works closely with the Customer and each Supplier to respond to RFQs and Proposals, to fulfill the Orders and to facilitate ongoing communications.

Rep Network:

JII has developed a rep network throughout the Gulf Coast region. If JII can't provide the solution they can help connect their customers with another rep group who can.

Leadership Team

Joe Wolfskill

President

Mobile: (713) 818-1512

Jill Wolfskill

Vice President

Mobile: (713) 818-1589

Jill.Wolfskill@jamesindustries.com

Dan Kenyon

Vice President of Process and Industrial

Mobile: (713) 818-3002

Dan.Kenyon@jamesindustries.com

Capital Project Team

Mike Coleman

Director of Capital Projects

Mobile: (713) 557-4529

Mike.Coleman@jamesindustries.com

Melanie Brunner

Director of Sales Operations

Mobile: (979) 639-1768

Melanie.Brunner@jamesindustries.com

Power & Industrial Team

Sammy Monistere

Regional Manager

Mobile: (225) 933-8376

Sammy.Monistere@jamesindustries.com

Primary Market: Louisiana

Dan Wolfskill

Account Representative

Mobile: (832) 492-2715

Dan.Wolfskill@jamesindustries.com

Primary Markets: Texas, Oklahoma & Arkansas

Operations Team

Eva Coffey

Office Administrator

Office: (979) 865-4000

Eva.Coffey@jamesindustries.com

JAMES INDUSTRIES, INC.

Principals

Babcock Power Environmental Inc. (BPE)

Service Capabilities include:

- Planning
- Designing
- Fabricating,
- Constructing
- Commissioning

Products include:

- Delta-DSI Dry Sorbent Injection
- Dual Loop & Single Loop Wet & Dry Flue Gas Desulfurization (FGD) Systems
- ACI Mercury Emissions Control
- WFSD Scrubber Upgrades
- Turbosorp® Circulating Dry Fluid Bed Scrubber
- Multi-Pollutant Air Quality Control Systems

(AQCS)

- Quality Low Cost Activated Carbon (HOK®)
- NOx Reduction Technology - Regenerative Selective Catalytic Reduction Systems (RSCR®)
- Waste-to-Energy plants, including combustion systems, boilers, services and air pollution control systems

Website:

<http://www.babcockpower.com/products/environmental/babcock-power-environmental>

Babcock Power Services Inc. (BPS)

OEM supplier for new natural circulation Boilers and Engineering Services for upgrading any manufacturer's boiler, including design and supply of pressure parts, including:

- Superheaters
- Reheaters
- Economizers
- Waterwalls
- Headers

BPS performs tungsten carbide weld overlay resurfacing for vertical spindle mill pulverizer Grinding Rolls and Bull Ring Segments.

Website: <http://www.babcockpower.com/products/boilers-boiler-services/babcock-power-services-inc>

Boiler Tube Company of America (BTA)

- 160 year's experience providing fabricated Boiler Tubular Pressure Parts and related auxiliary components for all styles of boilers including: Superheaters, Reheaters, Economizers, Headers and Waterwalls.
- Furnishes patented IMTEC Flexiseal™ Access Doors for a variety of different applications including precipitators, boilers, scrubbers, SCRs, baghouses, economizers and boiler penthouses.
- Developed patented 360° Inconel Weld Overlay using Wave Pulse Technology for spiral clad tubing.
- One of the largest and most extensive straight tube inventories in the United States.
- ISO 9001:2008 certified for designer and supplier of technology, equipment and services.

Website: <http://www.babcockpower.com/products/boilers-boiler-services/boiler-tube-co-of-america>

Technical Services Include:

- Emergency Repair
- Engineering
- Testing
- Explosive Technology
- Aftermarket Heat Transfer Equipment Services

Shop Services Include:

- Machining
- Flange Facing
- Pipe Prep
- EDM
- ASME Welding

- Retubing

Field Services Include:

- Retubing & Installation Of Feedwater Heaters
- Heat Exchangers
- Condensers
- Modular Change-outs
- MSRS
- Economizers
- Process Heaters
- Precipitators
- Piping

Website:

<http://www.babcockpower.com/products/boilers-boiler-services/tei-construction-services-inc>

Thermal Engineering International (TEi)

Heat Transfer Products:

- **Process Gas Waste Heat Boilers**
- High Pressure Industrial Shell & Tube Heat Exchangers
- **Process Fired Heaters**
- Thermal Solar Heat Transfer Solutions
- TEMA Heat Exchanges

Auxiliary Equipment and Systems:

- Fuel Heating, Pumping, & Metering Systems
- Thermal Fluid Pumping & Piping Systems
- Heat Exchangers, Reboilers & Jacketed Vessels

- Electrically Heated Systems For Emergency Back-up Or Start-up
- Combustion Air Preheaters
- Add-on Convective Sections & Economizers
- Waste Heat Recovery Boilers
- Storage Tanks, Expansion Tanks & Separator Vessels
- Air & Water-cooled Exchangers For Combined Heating/Cooling Systems
- **Turbo Gas Compressor Coolers**
- Air & Gas Coolers
- **Feedwater Heaters**
- **Surface Condensers**
- **Condenser Modules**

- **Fuel Gas Heaters**
- **Reboilers**
- **Moisture Separator Reheaters (Msrs)**
- **Air Cooled Round Tube**

Website:

<http://www.babcockpower.com/products/heat-exchangers/thermal-engineering>

Riley Power Inc (RPI)

Riley is the OEM supplier for:

- Natural Circulation, Field Erected Boilers
- **Fabricated Boiler Tubular Pressure Parts for Superheaters, Reheaters, Economizers, Headers and Waterwalls**
- Low NOx Burners: Coal, Gas, Biomass, etc.
- Gas Turbine Exhaust SCR & CO Systems
- Pulverizers Parts
- Roll Wheel Overlays
- Fuel Conversions
- Field Engineering Services Including Inspections and Condition Assessments

Website: <http://www.babcockpower.com/products/boilers-boiler-services/riley-power-inc>

Vogt Power International (VPI)

Products

- Standard HRSGs
- Once Through Steam Generators
- Complete HRSG Modules
- Superheaters
- Evaporators
- Economizers
- CO/SCR Systems
- Casings & Seals

Services

- Modeling
- Failure Analysis
- Inspection Services

Engineered Retrofits

- Pressure Parts
 - In-kind Replacement
 - Increased Capacity
 - Improved Heat Rate
- Retrofits
 - Ductwork
 - Casing/
 - Liner Panel Retrofits
- Heat Tracing / Freeze Protection
- Cycling
 - Higher Alloy
 - Automated Larger Drains
 - Vented Econ Vents
 - Recirc / Partial Bypass
 - Sparging Steam

Website:

<http://www.babcockpower.com/products/heat-recovery-systems/vogt-power-international>

Toshiba America Energy Services (TAES)

Milwaukee Service Center

Steam Turbines

- NDE Services
- Rotor & Casing Restoration
- Seal Replacement
- Blade Modification
- LSB replacement
- Retrofits
- Multi hole bypass valves

Generators

- Climate Controlled Clean Rooms Rotor/Stator Rewinds
- Stator Core Restacking
- Retaining Ring Inspection
- Retaining Ring Forgings
- High Speed Spin Pit

Engineering Services

- Material Testing
- Failure Analysis
- Component Design
- Finite Element Analysis

Website: <http://www.toshiba.com/taes/>

TurbinePROS (PROS)**Services**

- Sectionalized Inspections
- Major Overhauls
 - STG
 - GTG
 - Pumps
 - Compressors
- Hot Gas Path Inspection & Repairs
- Steam Path Component Repairs
- Generator Testing & Repairs
- Open, Clean, Inspect, Close
- Field Machining
- Field Supervision & Craft Labor

Field Service Support

- Field Inspection & Assessments
- Emergency Response Team
- Customized Tooling/Portable Machine Shops/Generator Removal Stand
- Detailed Outage Planning
- Foreign Material Exclusion Procedures
- OSHA Compliant Safety Programs

Industries

- Power
- Oil & Gas
- Chemical
- Petrochemical
- Pulp & Paper

Website: <http://www.turbinepros.com/>

Turbine Services, Ltd (TSL)

GE Large Frame Gas Turbine Parts - Frame Sizes – MS3002, MS5002, MS5001, MS5001
(Hi Tech) MS6001, MS7001, MS9001

Turbine

- Buckets
 - 1st, 2nd, 3rd Stage
 - Cover Plates
 - Bucket Hardware
- Nozzles
 - 1st, 2nd, 3rd Stage
 - Nozzle Hardware
- Shrouds
 - 1st, 2nd Stage
 - Inner
 - Outer
 - Shroud Hardware

Compressor

- Rotor Blades
- Stator Blades
- Inlet Guide Vanes

Combustion

- Fuel Nozzle Cap
- Transition Piece
- Combustion Liner
- Cross fire Tubes
- Elbows

Accessories

- Bearings
- Deflectors
- Seals
- Valves
- Flame Detectors
- Ignition transformers / igniters
- Thermocouples
- Fuel Pumps
- Flow Dividers
- Control Cards
- Accessory Gear Couplings
- Load Couplings

Website: <http://turbineservices.com/>

Steam Specialties Inc (SSI)

SSI provides non-OEM Steam Turbine Renewal Parts for GE and Westinghouse Designs.

Parts includes:

- Atmospheric Diaphragms
- Bushings
- Cam Shafts
- Carbon Brushes
- Caulking Strips
- Collars
- Crossheads
- Gaskets
- Hardware
- Hydraulic Cylinders
- Hydrogen Seal Rings
- Impellers
- Journey Bearings
- O Rings
- Oil Deflectors
- Packing Rings
- Packing Rings
- Piston Rings
- Quill Shafts
- Retainers
- Retaining Bands
- Seal Rings
- Sleeves
- Solenoids
- Spill Strips
- Spray Nozzles
- Stems
- Thermocouples
- Thrust Bearings
- Valve Assemblies
- Valves Stems

Website:

<http://steamspecialtiesinc.com>

Tusco Corporation

Westinghouse Industrial Gas Turbine Parts

Parts Include:

- W191
- W251 AA, B2-B8
- W501 AA, B, D, D5, D5A
- Turbine Blades
- Nozzles
- Ring Segments
- Compressor Rotor/Stator
- Combustion
- Bearings
- Fuel System Components
- Deflectors & eals
- Igniters, Transformers, Leads
- Hardware

Website: <http://www.tuscocorp.com/>

Systems include:

- Cooling Towers
 - Natural Draft & Fan assisted
 - Mechanical Draft
 - FRP Structure
 - Low Noise
 - Concrete Structure
 - Wood Structure
 - Sea Water
 - Hybrid
- Air Cooled Condensers
 - Air Cooled
 - Air Finned Coolers

Website: <http://www.spig-int.com/>

AEM Emissions Management Ltd

- Turnkey compressor stations
- Noise Management
- Heat Recovery
- Air Emissions Control
- Modular Gas Processing Facilities
- Gas Turbines and Recip Engine Products

Website: <http://www.atcoem.com/>

Howden North America Inc (HNA)

Howden has over 150 years of experience in providing engineering, design, supply and servicing of gas processing products and other associated equipment.

OEM Supplier for:

- Regenerative Air Preheater Baskets & Seals (Ljungström and Rothemühle)
- Package Air Heaters
- Fans
- Heavy Duty Chain Conveyors for Ash Handling Systems
- Installation, Repair and Maintenance Services
- Inspection Services and Parts

Website: <http://www.howden.com/AboutUs/bu/HNA/pages/home.aspx>

Industrial Services Group (ISG)

- Lining and Coating Solutions
 - Structural Painting
 - Lead Abatement
 - Coatings/Liners (roll-on, spray-on or applied)
- Fabricated FRP or Carbon Fiber products (pipes, tanks, headers, cooling tower components, ductwork and stacks)
- Vessel/Tank/Other Liners (FRP, Carbon Fiber, ceramic, glass, brick or tile)
- Fireproofing and Electrical/Instrumentation Wiring Services

Website: <http://www.isginc.us/>

Senior Flexonics Pathways (SFP)

- Metal Expansion Joints
- Fabric Expansion Joints
- Metroflex Dampers
 - Guillotine
 - Louver
- Bypass Stacks & Ductwork

Website: <http://www.sfpathway.com/>

DFT Inc

Severe Flow Control Valve

Severe Flow Conditions:

- High Pressure Drop (>1000 psi)
- High Temperature (> 900 F)
- Low Temperature (Cryogenic)
- Thermal Cycling
- Highly Corrosive / Seat Erosion Applications
- Buffeting or Pulsating Fluid
- Slurry Service
 - Mining, Petroleum & Some Chemical Applications

Website: <http://www.dft-valves.com/control-valves/>
